

ABOUT THE INSTITUTION

RNSIT, an Institute with a difference, is an esteemed Institution established in the year 2001 by Dr. R N Shetty, a well-known industrialist, philanthropist and an educationalist. It is built on a 160-acre clean-green campus and managed by a highly committed, proactive, non-interfering management, with a mission to impart high quality education, enabling graduates to excel in their career. The Institution offers Seven UG Programmes, Five M.Tech Programmes, one MCA and one MBA Programme. Six Departments have been recognized by VTU as Research and Development Centers.

All departments are harmonized with qualified and committed teaching faculty. Over 95% of the faculty members are Post Graduates/Ph.D holders. RNSIT is rated as one of the best teaching institutions by the public. One of the best components of RNSIT is its Placement and Training Cell with a committed team holding a record of 98% placements. The Institution works with a number of innovative methods in administration, services, conditions and teaching.

Strong and Disciplined Work Culture is the hallmark of RNSIT. Due encouragement is given for the holistic development of the individual. The institution organizes FDPs, National/International Conferences and Workshops on regular basis for the benefit of faculty members.

ABOUT THE DEPARTMENTS

Departments of Computer Science and Information Science and Engineering were established in the year 2001 right from the inception of the Institution with an objective of imparting quality technical education in IT field. The Departments house state-of-the-art laboratories, library facility and boast of well trained, committed and experienced teaching faculty who emphasize the theoretical and practical applications of computation and computer systems to the needs of society. The Departments are promoting excellence in Teaching, Research and Services covering the fundamentals as well as applied aspects of Computer Science and Information Technology.

FDP OBJECTIVE

The objective is to comprehensively cover the basics of Database concepts and Technology, Relational Data Model, SQL programming and Application development for real world problems with front- end tools like JAVA, PHP and Python.

Also this FDP emphasizes a hands-on approach for better understanding of Data Modeling and SQL programming with complete Database application development using back-end and front-end tools covering solutions for newly introduced experiments in DBMS Laboratory with mini project as prescribed in the **VTU revised syllabus(CBCS) for 5th semester BE Computer Science/ Information Science Engineering**
