VIZAGON: BUILDING INTELLIGENT TOMORROW

Vizagon is a deep-tech startup founded on 9 March 2026 by Shrish Rahul Hukkeri, Vamshi Ganesh B, and Vaishnavi, focused on advancing next-generation artificial intelligence, digital twin technologies, and computationally efficient intelligent systems.

The company explores innovative approaches to developing scalable, high-performance AI solutions by combining advanced machine learning, intelligent AI agents and orchestration, and optimized computational frameworks. Its research and development focus includes digital twin ecosystems, efficient GPU architectures, edge AI, autonomous agent systems, multi-agent orchestration, and resource-optimized inference, with an emphasis on reducing computational overhead while maintaining performance,scalability,and reliability.

Vizagon aims to bridge the gap between emerging AI research and practical real-world applications by developing adaptable deep-tech capabilities that can support diverse industries. Through an engineering-first approach,the company prioritizes computational efficiency,intelligent automation,system interoperability,and scalable technology infrastructure.

With a long-term vision of contributing to the evolution of intelligent digital systems, Vizagon is committed to building efficient, scalable, and future-ready AI technologies designed to address complex challenges across an expanding range of domains.

DEPARTMENTAL ACTIVITY :

We have organized inter collegiate Technical Fest under the aegis of IEEE Student Branch and Adroit – Technical club of CSE.

GUEST LECTURES

Core Competency Addressed: Software Development & Technical Knowledge (Java Ecosystem).

Career Relevance: Prepares early-semester (3rd Sem) engineering students with real-world industry perspectives and emerging software development trends for future placement readiness.

GUEST LECTURE:

The Department of Information Science and Engineering, RNS Institute of Technology, organized a Guest Lecture on "Map Reduce: From Big Data to AI-Driven Computing" for the 7th Semester ISE students on 18 September 2026.

The session was conducted online from 2:00 PM to 3:30 PM. The lecture was delivered by Dr. Rama Satish K V, Associate Professor, CSE (AIML), who provided insights into MapReduce, Big Data processing, and its relevance to AI-driven computing.

The program was coordinated by Dr. Sunitha K, Associate Professor, and Ms. Nivedita G Y, Assistant Professor, under the guidance of Dr. Suresh L, HoD, Department of ISE & CSBS. The session helped students enhance their understanding of Big Data technologies and their applications in modern computing.

CAREER GUIDENCE:

The department of mechanical Engineering organised a career guidance session on 07/09/2026. Mr. Shashank, a Graduate Marine Engineer, briefed the 5th semester students about the GME course. He explained that it is a 1-year pre-sea course for mechanical graduates to join the Merchant Navy, its structured career growth from Trainee to Chief Engineer, and the strong technical and practical skills it provides. The session was very helpful in giving students clarity about their career options after graduation.

EXPERT TALK :

OUTCOMES OF THE SESSION : BUILDING CAREERS IN AI AND CYBERSECURITY

- Students gained awareness of emerging career opportunities in Artificial Intelligence and Cybersecurity.
- Developed an understanding of the skills and technical competencies expected by the IT industry.
- Learned about current industry trends,job roles,and career pathways in AI and Cybersecurity.
- Understood the importance of hands-on projects,certifications,and continuous learning for career growth.
- Gained insights into industry expectations and placement preparation.
- Improved awareness of how AI is transforming cybersecurity practices and IT careers.
- Encouraged students to identify and develop relevant technical and professional skills from an early stage.
- Enhanced students' confidence and motivation to prepare for future career opportunities in the evolving IT industry.

UPCOMING OPPORTUNITIES

- Campus recruitment drives: 31+ campus drives are planned for the upcoming placement season.
- Internship opportunities :
- Training programmes: Aptitude, technical, coding, and soft-skills training programmes will be conducted to enhance employability.
- Certification programmes: (IBM Skill Build Program) Industry-recognized certification programmes in emerging technologies will be organized.
- Hackathons: (Infosys HackWithInfy) and Students will be encouraged to participate in national-level hackathons, coding contests,and innovation challenges.
- Career guidance initiatives: Career counselling sessions, resume-building workshops, mock interviews, and expert talks will be arranged to support students' career development.
