Two Day Workshop on Analysis and Design of Tall Structures Using PROKON

In association with GeeksLab Technologies Pvt Ltd, New Delhi “Two Day Workshop on Analysis and Design of Tall Structures Using PROKON” software was conducted on 16th-17th AUGUST 2019 in the department of Civil Engineering.

PROKON is a latest software exclusively used for analysis and design of TALL STRUCTURES. In this regard, students of 5th and 7th semester BE(CIVIL) were trained using latest software “PROKON to understand the use of the same in the ANALYSIS AND DESIGN OF TALL STRUCTURES. The sessions were held in batches of 30 students for TWO DAYS with hands on training regarding the use of PROKON software for analysis and design of tall structures.

At the end of training, participants received CERTIFICATE in association with AIESEC, IIT Delhi
