ABOUT THE INSTITUTION

RNS Institute of Technology (RNSIT) is an esteemed Institution established in the year 2001 by our beloved Founder Dr. R N Shetty, a well-known industrialist, philanthropist, and an educationalist. The Institution is led by our beloved Managing Trustee, Sri. Satish R Shetty.

RNSIT is built on a sprawling 160 acre clean green campus managed by a highly committed, proactive, and compassionate management with a mission to impart quality higher education, enabling graduates to excel in their career. The Institution offers Nine UG, Four PG Programs, Nine Departments have Research & Development centers recognized by VTU.

All departments are having highly qualified, committed, and dedicated faculty. Over 42% of the faculty members are pursuing Ph.D. and 26% are doctorates. RNSIT is rated as one of the best teaching institutions by the public. A unique feature of RNSIT is its Training and Placement Department holding more than 1495 placement offers. The Institution works with a number of innovative methods in administration, services, and teaching. The Institution is consistently bagging University ranks and Gold medals in both UG & PG programs. Strong and disciplined work culture is the hallmark of RNSIT. Due encouragement is given for the holistic development of every individual. The institution organizes FDPs, National/International Conferences and Workshops on regular basis for the benefit of faculty members and students.

RNS INSTITUTE OF TECHNOLOGY

(AICTE Approved, VTU Affiliated and NAAC 'A' Accredited)

ABOUT THE DEPARTMENTS

The departments of Computer Science & Engineering (CSE), Information Science & Engineering (ISE), Artificial Intelligence & Machine Learning (AI & ML) and Master of Computer Applications (MCA) are established with the intention of imparting high quality technical education. The departments have grown exponentially in terms of students quality, enthusiastic faculty, infrastructure, and the accolade.

The objective of the departments is to train interdisciplinary graduates, transforming them into global leaders/trendsetters and to keep pace with the latest IT trends. These programs are designed to meet the growing demands of IT industry.

RNSIT
Bengaluru

**National Conference
on
Computing Technology (NCT - 2022)**

June 30, 2022

Jointly Organized by Departments of

Computer Science & Engineering
Information Science & Engineering
Artificial Intelligence & Machine Learning
Master of Computer Applications

Vision of the Institute

Building RNSIT into a World-Class Institution.

Mission of the Institute

To impart quality education in Engineering,
Technology and Management with a difference,
Enabling Students to Excel in their Career.

ABOUT THE CONFERENCE

The National Conference on Computing Technology - 2022 jointly organized by departments of CSE, ISE, AI & ML and MCA, NSIT, Bengaluru, will be held on June 30, 2022. Higher education institutes are engaged in knowledge transformation, assimilation, creation and dissemination to meet the organizational expectations. The primary goal of this conference is to bring together experts, students and innovators from academia/industry in related fields and provide a platform for networking. The conference also aims to spark young graduates interest to pursue research as a career. The conference will facilitate and promote interdisciplinary research.

CALL FOR PAPERS

NCT - 2022 invites paper submissions on topics related to computing Technology, including but not limited to:

- Artificial Intelligence and its Applications
- Data Science, Machine Learning & Deep Learning
- Computer Vision & Augmented Reality-Virtual Reality
- Cyber Security
- Edge Computing & Quantum Computing
- IoT & Cloud Computing
- Natural Language Processing
- Software Engineering & Architecture
- Wireless & Mobile Networks
- Business Intelligence
- Robotic Process Automation (RPA)
- Blockchain

TARGET AUDIENCE

Students from CSE, ISE and allied branches.
PG Students from M.Tech. & MCA.

INSTRUCTIONS FOR PAPER SUBMISSION

Full Papers on original work with about 300 words of abstract and not exceeding eight A4 size pages conforming to the IEEE style with details of the authors, affiliations, address and Email ID should be submitted electronically before the deadline. Detailed instructions pertaining to paper format can be downloaded from our conference website www.rnsit.ac.in/nct-2022/index.html. Each paper will be blind reviewed by two prominent domain experts and one of the author must register. All accepted and presented papers will be published in Conference proceedings with ISBN. Some of the conference papers adhering to quality standards of Integrated Intelligent Research (IIR) will be published in IJCOA, IJWT, IJBI, IJDMTA and IJCNES.

REGISTRATION

Registration Fee for each paper: ₹500.00
Registration Fee through Net Banking/UPI
Name: RNSIT
Bank Name: CANARA BANK
Branch: RNSIT

ABOUT THE INSTITUTION

RNS Institute of Technology (RNSIT), an Institute with a difference, is an esteemed Institution established in the year 2001 by our beloved Chairman Dr. R.N Shetty, a well-known industrialist, philanthropist, and an educationalist. Currently, the Institution is led by our beloved Managing Director, Sri. Satish R Shetty.

RNSIT is built on a sprawling 150 acre clean green campus managed by a highly committed, proactive, and compassionate management with a mission to impart high quality engineering education, enabling graduates to excel in their career. The Institution offers **Nine UG Programs, Four PG Programs, Nine Departments** have been recognized by VTU as Research and Development Centers.

All departments are having highly qualified, committed, and dedicated teaching faculty. Over 42% of the faculty members are pursuing Ph.D. and 20% are doctorates. RNSIT is rated as one of the best teaching institutions by the public. One of the best components of RNSIT is its Training and Placement Department with a committed team holding a record of 98% placements. The Institution works with several innovative and best practices in administration, services, and teaching. The Institution is consistently bagging University ranks and Gold medals in both UG & PG programs. Strong and Disciplined Work Culture is the hallmark of RNSIT. Due encouragement is given for the holistic development of the individual. The institution organizes FDPs, National International Conferences and Workshops on regular basis for the benefit of faculty members and students.

ABOUT THE DEPARTMENTS

The departments of Computer Science and Engineering (CSE), Information Science and Engineering (ISE), Artificial Intelligence and Machine Learning (AI&ML) and Master of Computer Applications (MCA) are established with an objective of imparting high quality technical education in Information Technology field. With a strong foundation and dedication, the departments have grown by leaps and bounds in terms of quality of students, committed faculty, infrastructure, and the achievements. Departments of CSE and ISE are NBA accredited for the period 2018 to 2022.

The objective of the departments is to train interdisciplinary graduates, transforming them into global leaders / trend-setters and to keep pace with the latest IT trends. These programs are designed to meet the growing demands of IT industry.

FDP OBJECTIVE

The objective of this FDP is to comprehensively cover the Introduction to Artificial Intelligence and Machine Learning, Illustration of various AI and ML algorithms and their use in appropriate applications and building intelligent systems that learn from experience by exploring various learning algorithms, as prescribed by the VTU CBCS Syllabus of *Artificial Intelligence and Machine Learning (18CS71) and Laboratory (18CSL76)* for 7th semester B.E in Computer Science/Information Science and Engineering courses.

TOPICS COVERED

- Introduction to Artificial Intelligence
- Concept Learning
- Decision Tree
- Artificial Neural Network
- Bayesian Learning
- Instance-Based Learning
- Reinforcement Learning
- AI&ML Laboratory Program

WHO CAN ATTEND?

Faculty Members who are interested in handling the course *Artificial Intelligence and Machine Learning Theory and Laboratory* can attend.

COURSE OBJECTIVES

- Understand AI & ML and explore problems relevant to ML, Differentiate supervised, unsupervised, concept learning, decision tree and reinforcement learning.
- Apply Artificial Neural Networks, Bayesian classifier, K-nearest neighbor for ML problems and Case-Based reasoning.

Vision of Institution : Building RNSIT into a World-Class Institution

ABOUT THE INSTITUTION

RNS Institute of Technology (RNSIT), an Institute with a difference, is an esteemed Institution established in the year 2001 by our beloved Chairman **Dr. R N Shetty**, a well-known industrialist, philanthropist, and an educationalist. Currently, the Institution is led by our beloved Managing Director, **Sri. Satish R Shetty**.

RNSIT is built on a sprawling 160 acre clean green campus managed by a highly committed, proactive, and compassionate management with a mission to impart high quality engineering education, enabling graduates to excel in their career. The Institution offers **Nine** UG Programs, **Four** PG Programs. **Nine** Departments have been recognized by VTU as Research and Development Centers.

All departments are having highly qualified, committed, and dedicated teaching faculty. Over 42% of the faculty members are pursuing Ph.D. and 26% are doctorates. RNSIT is rated as one of the best teaching institutions by the public. One of the best components of RNSIT is its Training and Placement Department with a committed team holding a record of 98% placements. The Institution works with several innovative and best practices in administration, services, and teaching. The Institution is consistently bagging University ranks and Gold medals in both UG & PG programs. Strong and Disciplined Work Culture is the hallmark of RNSIT. Due encouragement is given for the holistic development of the individual. The institution organizes FDPs, National/International Conferences and Workshops on regular basis for the benefit of faculty members and students.

ABOUT THE DEPARTMENTS

The departments of Computer Science and Engineering (CSE), Information Science and Engineering (ISE), Artificial Intelligence and Machine Learning (AI&ML) and Master of Computer Applications (MCA) are established with an objective of imparting high quality technical education in Information Technology field. With a strong foundations and dedication, the departments have grown by leaps and bounds in terms of quality of students, committed faculty, infrastructure, and the achievements. Departments of CSE and ISE are NBA accredited for the period 2018 to 2022.

The objective of the departments is to train interdisciplinary graduates, transforming them into global leaders / trend-setters and to keep pace with the latest IT trends. These programs are designed to meet the growing demands of IT industry.

FDP OBJECTIVE

Data analytics is the process of examining data sets in order to draw conclusions about the information they contain with the aid of specialized systems and software. Analysis of data is a process of inspecting, cleaning, transforming, and modeling data with the goal of discovering useful information, suggesting conclusions, and supporting decision-making. The workshop provides hands-on for following topics and also a case study

TOPICS COVERED

- Python Libraries for Data Science
- Data Preprocessing and Wrangling
- Web Scraping
- Data Visualization
- Regression Techniques and Analysis

WHO CAN ATTEND?

Faculty Members who wants to explore "Data Analytics" can attend.

COURSE OBJECTIVES

- To impart the basics of Data Analytics
- To provide an exposure to data analytic techniques.
- To expose python libraries for data science
- To provide hands-on experience to data Analytics and visualization.

RESOURCE PERSON

- Mr. Shreyas Hegde**, Principal Engineer, Wissen Tech.
Dr. Kiran P, Prof. & Head, Dept. of CSE
Dr. Harsha S, Assoc. Prof. & Head, Dept. of AI&ML

ABOUT THE INSTITUTION

RNS Institute of Technology (RNSIT), an Institute with a difference, is an esteemed Institution established in the year 2000 by our beloved Chairman Dr. R.N.Shetty, a well known industrialist, philanthropist, and an educationist. Currently, the Institution is led by our beloved Managing Director, Sri. Suresh H Shetty.

RNSIT is built on a sprawling 160 acre clean green campus managed by a highly committed, proactive, and compassionate management with a mission to impart high quality engineering education, enabling graduates to excel in their career. The Institution offers B.Tech, UG Programs, Post-UG Programs. Nine Departments have been recognized by VTU as Research and Development Centers.

All departments are having highly qualified, committed, and dedicated teaching faculty. Over 42% of the faculty members are pursuing Ph.D and 20% are doctors. RNSIT is rated as one of the best teaching institutions by the public. One of the best components of RNSIT is its Training and Placement Department with a committed team holding a record of 95% placements. The Institution works with several innovative and best practices in administration, services, and teaching. The Institution is consistently bagging University ranks and Gold medals in both UG & PG programs. Strong and Disciplined Work Culture is the hallmark of RNSIT. Due encouragement is given for the holistic development of the individual. The Institution organizes FDPs, National/International Conferences and Workshops on regular basis for the benefit of faculty members and students.

ABOUT THE DEPARTMENTS

The departments of Computer Science and Engineering (CSE), Information Science and Engineering (ISE), Artificial Intelligence and Machine Learning (AIML) and Master of Computer Applications (MCA) are established with an objective of imparting high-quality technical education in Information Technology field. With a strong foundation and education, the departments have grown by leaps and bounds to some of quality of students, committed faculty, infrastructure, and the achievements. Departments of CSE and ISE are NBA accredited for the period 2019 to 2022.

The objective of the departments is to train interdisciplinary graduates, transforming them into global leaders in trend, aware and to keep pace with the latest IT trends. These programs are designed to meet the growing demands of IT industry.

FDP OBJECTIVE

The objective of this FDP is to comprehensively cover the concepts of IoT with practical exposure. This FDP emphasizes hands-on approach for better understanding of IoT and its applications by providing solutions for all the experiments as prescribed by the VTU CBCS Scheme and Syllabus for 3rd semester MCA (Mini project with IoT Lab).

TOPICS COVERED

- Raspberry Pi
- Sensors in PI
- Applications of IoT
- Arduino Platform
- IoT Simulator

WHO CAN ATTEND?

Faculty Members who want to explore "Internet of Things" in detail.

COURSE OBJECTIVES

- To impart fundamental concepts of IoT sensors.
- To Provide hands-on training on Raspberry Pi/Arduino Board.
- To Design and program IoT devices.
- To Demonstrate IoT solutions.
- To Secure IoT Applications
- To overview IoT Network Layer.

PROGRAM SCHEDULE		
Date/Day	Time	Topic
22/09/2021 Wednesday	09:00 AM - 09:30 AM	Registration
	09:30 AM - 10:00 AM	Keynote Address - Trends in IoT
	10:00 AM - 11:00 AM	Introduction to Raspberry pi
	11:00 AM - 12:30 PM	Hands-on Exercises (Lab programs L1 & 2)
	01:30 PM - 03:30 PM	Discussion on research progress (Dr. L.K., Suresh H Shetty)
23/09/2021 Thursday	09:00 AM - 10:00 AM	Starting IoT Applications
	10:00 AM - 11:00 AM	IoT Network Layer
	11:00 AM - 11:30 AM	Introduction to Raspberry pi
	11:30 AM - 12:30 PM	Hands-on Exercises (Lab programs 3 & 4)
	01:30 PM - 03:30 PM	Building web applications using Flask Framework
24/09/2021 Friday	09:00 AM - 10:00 AM	Introduction to Arduino Uno
	10:00 AM - 11:00 AM	Hands-on Exercises (Lab programs 5 & 6)
	11:00 AM - 11:30 AM	Working on Relay Boards (Lab programs 4 & 5)
	11:30 AM - 12:30 PM	Hands-on Exercises in IoT Simulator (IoT Simu - IOT display)
	01:30 PM - 03:30 PM	Hands-on Exercises in IoT Simulator (IoT Simu - IOT display)
	3:30 PM - 4:30 PM	Valedictory

A HONOUR ARRANGEMENT

2020-2021

NCCT-ICT 2021: National Conference on Contemporary Trends in Information & Computing Technologies 2021

ABOUT THE INSTITUTION

RNS Institute of Technology (RNSIT), an Institute with a difference, is an esteemed Institution established in the year 2001 by our beloved Chairman **Dr. R N Shetty**, a well-known industrialist, philanthropist, and an educationalist. Currently, the Institution is led by our beloved Managing Director, **Shri. Satish R Shetty**.

RNSIT is built on a sprawling 160 acre clean green campus managed by a highly committed, proactive, and compassionate management with a mission to impart high quality engineering education, enabling graduates to excel in their career. The Institution offers **Eight** UG, **Four** PG Programs. **Nine** Departments have been recognized by VTU as Research and Development Centers.

All departments are having highly qualified, committed, and dedicated teaching faculty. Over 42% of the faculty members are pursuing Ph.D. and 26% are doctorates. RNSIT is rated as one of the best teaching institutions by the public. One of the best components of RNSIT is its Training and Placement Department with a committed team holding a record of 98% placements. The Institution works with a number of innovative methods in administration, services, and teaching. The Institution is consistently bagging University ranks and Gold medals in both UG & PG programs. Strong and Disciplined Work Culture is the hallmark of RNSIT. Due encouragement is given for the holistic development of the individual. The institution organizes FDPs, National/International Conferences and Workshops on regular basis for the benefit of faculty members and students.

ABOUT THE DEPARTMENTS

The departments of Computer Science and Engineering (CSE), Information Science and Engineering (ISE), Artificial intelligence and Machine Learning (AIML) and Master of Computer Applications (MCA) are established with an objective of imparting high quality technical education in information Technology field. With a strong foundations and dedication, the departments have grown by leaps and bounds in terms of quality of students, committed faculty, infrastructure, and the achievements.

The objective of the departments is to train interdisciplinary graduates, transforming them into global leaders / trend-setters and to keep pace with the latest IT trends. These programs are designed to meet the growing demands of IT industry.

ABOUT THE CONFERENCE

The National Conference on “**Contemporary Trends in Information & Computing Technologies – 2021**” jointly organized by departments of CSE, ISE, AIML and MCA, RNSIT, Bengaluru, on July 08, 2021. Higher education institutes are engaged in more than just knowledge transfer from teachers to students in this age of knowledge. They are also involved in knowledge assimilation, creation and dissemination. The primary goal of this conference is to bring together experts, students and innovators from academia in related fields and provide a platform for them to learn about what is going on, in the research world. The conference also aims to spark young graduates interest to pursue research as a career. The conference will aid in the facilitation and promotion of interdisciplinary research among students across various disciplines.

CALL FOR PAPERS

NCCT-ICT 2021 invites paper submissions on topics related to Contemporary Trends in Information & Computing Technologies, including but not limited to:

- Artificial Intelligence and its Applications
- Data Science, Machine Learning & Deep Learning
- Computer Vision & Augmented Reality-Virtual Reality
- Cyber Security
- High Performance Computing
- IoT & Cloud Computing
- Natural Language Processing
- Software Engineering & Architecture
- Wireless & Mobile Networks
- Business Intelligence

TARGET AUDIENCE

- **Final Year UG Students** from CSE, ISE and allied branches.
- **PG Students** from M.Tech.& MCA.

CONFERENCE OBJECTIVES

We create a platform for sharing knowledge, collaboration and relationship among students and encourage them to work together for better outcomes.

INSTRUCTIONS FOR PAPER SUBMISSION

Full Papers on original work with about **300 words** (abstract and **not exceeding eight A4 size page**) conforming to the **IEEE style** with details of the author affiliations, Address and Email ID should be submitted electronically before the deadline. Detailed instruction pertaining to paper format can be downloaded from the conference website www.rnsit.ac.in/ncctict2021. Each paper will be blind reviewed by two prominent domain experts. All accepted and presented papers will be published in Conference proceedings with ISBN. For each of the accepted papers, at least one of the authors must register and present the paper.

REGISTRATION

Registration Fee for each paper: ₹400.00

Registration fee through Net Banking/UPI

Introduction

Compression reduces the size of a file

- To save space when storing it.
- To save time when transmitting.
- Most files have lots of redundancy.

Who needs compression?

- Moore's law: # transistors on a chip doubles every 18-24 months.
- Parkinson's law: data grows to fill the available space.
- Text, images, sound, video.

Year	Transistor Count
1971	2,300
1974	29,000
1976	275,000
1978	2,750,000
1982	27,500,000
1985	275,000,000
1989	2,750,000,000
1993	27,500,000,000
1997	275,000,000,000
2001	2,750,000,000,000
2005	27,500,000,000,000
2009	275,000,000,000,000
2013	2,750,000,000,000,000
2017	27,500,000,000,000,000

IETE Sponsored Fourth National Conference on Emerging Trends in Engineering, Science and Technology

Monday, July 05, 2021

About the Conference

The Conference provides a platform for UG students, PG students and Research scholars of Engineering discipline for the exchange of new ideas, thoughts, emerging trends in Engineering, Science & Technology

Topics

- ◆ Machine learning and Artificial Intelligence
- ◆ Audio & Speech Processing
- ◆ Pattern recognition
- ◆ Image & Video Processing
- ◆ Biomedical Signal Processing
- ◆ Cellular Communication and Optics
- ◆ VLSI / Embedded Systems
- ◆ Microwave & Web Technologies
- ◆ Robotics Engineering
- ◆ Reliability and Quality Assurance
- ◆ Cloud Computing
- ◆ Computer Security
- ◆ Data Mining
- ◆ Neural Networks
- ◆ Nano Electronics
- ◆ Mobile Computing
- ◆ Mechatronics
- ◆ IoT
- ◆ MEMS

The conference proceedings will be digitally published

Five Day Workshop

on
*Advanced Applications of
Surveying Using TOTAL STATION*

March 21 – March 26, 2022

Organized by
Department of Civil Engineering
in Association with Softech India Private
Limited, Bengaluru

RNS INSTITUTE OF TECHNOLOGY

AICTE approved and affiliated to VTU, Belagavi R N Shetty Institute of Technology (RNSIT), an Engineering college in Karnataka is established in the year 2001 to impart high-quality technical education. It is supporting NINE UG disciplines, TWO PG programmes in Engineering, MBA, MCA and VTU R&D Cells in NINE departments, including Civil Engineering.

RNSIT recognizes that the faculty is the key component in the education system requiring periodic updating and training. To keep abreast with the current technologies, the institution is jointly hosting a FIVE-DAY workshop on "ADVANCED APPLICATIONS OF SURVEYING USING TOTAL STATION".

Civil Engineering Department

The Department of Civil Engineering is offering Bachelor of Engineering course under VTU from 2014-15 with an annual intake of 60 students, under the guidance of the great visionary in Civil Engineering constructions and Infrastructure Projects, Dr. R N Shetty. The department has committed, and experienced teaching faculty specialized in various areas of Civil Engineering. The department has excellent infrastructure and laboratory facilities. The young and dynamic faculty of the department is actively involved in research and consultancy in emerging and thrust areas in Civil Engineering.

IMPORTANCE OF TOTAL STATION

A total station is an electronic/optical instrument used in surveying and in building construction. The total

station is a transit theodolite integrated with an electronic distance measurement (EDM) to read slope, distances from the instrument to a point, and an on-board computer to collect data and perform advanced coordinate-based calculations. It is mainly used by land surveyors and Civil Engineers, either to record features as in topographic surveying or to set out features such as roads, houses or boundaries. They are also used by archaeologists to record excavations and by private accident reconstructionist and insurance companies to take measurements of the scenes. It is the basic surveying instrument that can be used in all construction projects and students shall be well versed with its use and related surveying knowledge in order to be employable.

OBJECTIVES

- Introduction of total station & hands on experience
- Exposing the participants to learn advanced applications of surveying using Total Station
- Extracting & Interpolating Total Station data using software

TRANSFORMING RNSIT INTO A WORLD-CLASS INSTITUTION

2017-2018

Purpose of the Workshop

Python is a general-purpose programming language which is more popular for data science. Companies worldwide are using Python to harvest insights from their data and get a competitive edge. The objective of this workshop is to cover the concepts of Python Programming and its application with data science and IoT. Over time, the huge community around this open source language has created quite a few tools to efficiently work with Python. A number of tools have been built specifically for data science. As a result, analyzing data with Python has never been easier. Participants will learn about powerful ways to store and manipulate data as well as data science tools.

The program is open for faculty members of all Engineering and MCA disciplines. Application routed through proper channel!

Resource Persons

Experts from academic institutions and industry.

Topics Covered

- Explore Python language fundamentals, including Environment setup and basic syntax, python lists, functions and packages
- File Handling and GUI programming in Python
- Object Oriented Programming using Python
- Python application to IoT
- Python programming for data science
- Hands-on session on lab programs of VITU prescribed syllabus

Board for IT Education Standards (BITES)

BITES is a nonprofit society set up by Government of Karnataka in co-operation with IT Industry and Educational Institutions, to promote and sustain the quality of IT education on a voluntary and self-financing basis. BITES conducts faculty development programs, student development programs and distinguished lectures for BITES member institutions on a regular basis. TCS TechEdays – State wide IT quiz for engineering students and Awards for Best PhD Theses are the annual features of BITES.

Our stake holders include honorarional members (37 engineering colleges across Karnataka) and corporate members (10 IT industries). BITES has a standing Governing Board consisting of distinguished members drawn from IT industry, Academia and Government which formulates policies and advises Chairman and Executive Director in the conduct of its operations.
