What is Automata-Fix?

With the evolution of new technologies, the demand for good coders has increased. Keeping that in mind, we have added "Automata Fix" in AMCAT to test the coding ability of a candidate.

Automata Fix is an assessment solution to check for a computer programmer's ability to debug an erroneous code and fix it.

Why Automata Fix?

So don't wait anymore! Assess your students now and help them improve their aptitude as well as coding/domain skills required to become 'industry ready'.

Help your students match the industry expectations and bring them a step closer to their dream job. For more info, ask an expert.

What is Mock AI?

MockAI

4 essential things to know about before appearing for any job interview!

The most effective tip to crack any "job interview" is to prepare for it in advance. It includes brushing up their skills and knowledge and a candidate should know every possible thing about the company and the job role he/she has applied for.

Provides real life interview experience & records answers as video.

Tests interview skills on 20 most sought after job roles.

Detailed feedback report & personalized guide to improve.

Make interview a lot more easier for your students with Aspiring Minds' MOCK-AI, an AI powered tool to help your students prepare for their interview. It also provides the most accurate feedback that can help the candidate improve and gain confidence before the actual face-to-face round.

Here are few things that a candidate should know before going for an interview:

1

Skills that the job requires!

To discover that, one should read the job description carefully or visit the employer's career page.

2

Company's culture & values!

Visiting company's website and reading the "mission/values" section or following the social media platform of the company helps.

3

Clients, Products & Services!

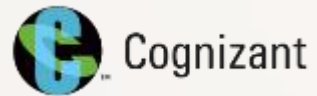

Knowing about all these surely creates a positive impact in the interview.

4

Organization's head & interviewer!

Knowing about key people in the organization and the interviewer helps to have an interactive conversation with the interviewer.
